12 November 1971

MEMORANDUM FOR: Director of Training

SUBJECT : Senior Seminar Weekly Report
8 - 12 November, 1971

1. The Senior Seminar completed Block VI, "New Tools and Methodologies for Intelligence." In addition to the items covered in last week's report, the balance of the Block VI presentations included extensive coverage of the Delphi technique, the application of the Decision Tree to intelligence analysis and a discussion of the methods and application of Automatic Data Processing. Following the evaluation of Block VI on 9 November, the participants departed on their field trips.

3. John Iams, Director of Computer Services, in his presentation "The Layman Manager and ADP," discussed the methods and application of Automatic Data Processing for managers who do not have a technical background or experience in this area. He also mentioned the Agency's current capability in ADP and provided an insight into future in-house developments in this field. [   ] 25X1A

25X1A9a [   ], a Seminar participant, gave an excellent presentation on the use of computers by the Agency.

4. Eight participants, escorted by [   ] (Senior 25X1A9a

Seminar Staff), will visit CINCLANT and Cape Kennedy. Nine other

25X1A9a participants, escorted by [   ] (Senior Seminar Staff), will tour the principal facilities of the DDS&T contractors on the
